

triton Product Specification Sheet

Steel Cutter

SCA001

Features

Fully enclosed guarding - before, during and after the cut.

High quality TCT blade supplies a smooth, clean cut with minimal burring.

Works stops with measuring spool for accurate repetitive cutting.

Lock-out pins - prevent cutting (and blade damage) if clamps incorrectly adjusted.

Semi automatic work clamps for fast multiple cutting.

Cut line indicator - cut by the blade for accurate work alignment. Adjustable for wear.

Leg clamps - accommodate your own tube cut to desired operating height.

Swarf drawer - for containment and easy disposal of swarf.

Specifications

VOLTAGE:	240V/50Hz
